Re: Response to Comments - Draft QAPP Site 7 - RTC Silk  
Screen Shop and Site 17 - Pettibone Creek and Boat  
Basin Remedial Investigation and Risk Assessment

0971255048 -- Lake  
Great Lakes Naval Station  
Superfund/Technical Reports

Dear Mr. Robinson:

The Illinois Environmental Protection Agency (Illinois EPA or Agency) received the Final Quality Assurance Project Plan, Site 7 - RTC Silk Screen Shop and Site 17 - Pettibone Creek and Boat Basin Remedial Investigation and Risk Assessment from Tetra Tech NUS, Inc. It was received at Illinois EPA on August 6, 2001. The Agency has reviewed the document and has the following comments:

- 1) Stated response to Illinois EPA's comment number 15 has not been incorporated into the document. There is no change to the text indicating that a LPG in the office will review the boring logs.
- 2) Stated response to Illinois EPA's comment number 25 has not been incorporated into the document. The reference to Site 7 has not been changed to Site 17.

If you have any questions or require additional information, please contact me at (217) 557-8155 or by electronic mail at [brian.conrath@epa.state.il.us](mailto:brian.conrath@epa.state.il.us).

Sincerely,

*Brian A. Conrath*
